

PhD student *Gitanjal Deka* from the *Yang-Ming University* in Taiwan wins the *JenLab Young Investigator Award 2014* including \$2000 cash and an invitation as main speaker at the international *FLIM2014* workshop in Germany

PhD student Gitanjal Deka and Prof. Karsten König,
president of JenLab GmbH

The *JenLab Young Investigator Award* was presented during the SPIE conference *Photonics West* at San Francisco on February 4, 2014 to **Gitanjal Deka** for his paper titled: "Multiphoton microscopy for skin wound healing study in terms of cellular metabolism". The \$2000 cash prize was donated by the JenLab GmbH (Germany). The award was given the third time (2012 to Mr. Jesse W. Wilson, 2013 to Mrs. Alex J. Walsh).

The members of the Review Committee have chosen two finalists among the applicants:

- 1. Adi Schejter (Technion, Haifa, Israel)**
- 2. Gitanjal Deka (National Yang-Ming University, Taipei, Taiwan).**

Both finalists presented their work as oral presentation during the *Multiphoton Microscopy Conference*. During the award ceremony, Prof. Karsten König, president of the company JenLab GmbH, invited both finalists to visit Germany and to present their outstanding work as invited speakers during the *International Workshop on Modern Lasermicroscopy FLIM2014* in Saarbrücken in May 2014 (www.flim.ws).

Members of the Review Committee 2014:

Prof. Paul J. Campagnola, University of Wisconsin-Madison
Prof. Conor L. Evans, Harvard Medical School & MGH
Prof. Karsten König, Saarland University & CEO JenLab GmbH
Dr. Arnd Krueger, Vice-President, Spectra Physics/Newport Inc.
Prof. Ammasi Periasamy, University of Virginia
Prof. Peter T.C. So, MIT

Certificate *JenLab Young Investigator Award 2014*
